## ACKNOWLEDGMENT

Like most major publications, this year's Annual Report represents the efforts of a number of people. Gilda Robertson and Charles Azebeokhai prepared the statistics and narrative describing Employment Service workload accomplishments for 1989. Doug McDowell and Robert Wood compiled data and wrote the narrative highlighting Unemployment Insurance workload activities for the past year. Also, I wish to thank Ron Skocki for his helpful suggestions in our attempt to put this report together. Finally, but not least, many thanks are extended to the Support Service staff: Joyce Larson, Barbara Watt, Debra Bonacci, D'Launa Rindlisbacher, and Shelley Roberts. Without their able and cheerful assistance, this report would never have come into publication.

Gary Felker, Supervising Economist

# EMPLOYMENT SERVICE ACTIVITIES

# SECTION I

# SUMMARY OF 1989 WORKLOADS

# EMPLOYMENT SERVICE ACTIVITIES FOR PROGRAM YEAR 1989

During the 1989 Program Year (PY), 178,462 individuals registered with Job Service. This represents a 1.4 percent increase over the previous year's registration. Likewise, the number of individuals referred to jobs increased from 118,417 in PY 1988 to 126,019 in PY 1989, reflecting a 6.4 percent increase. For individuals placed on jobs during the year, the year-over percentage increase was 10.8 (See Table 1). These placements represent 45.2 percent of individuals referred to jobs during the same period. Also, the ratio of individuals referred relative to new applications and renewals increased by 31.9 percent (See Table 2).

During each year, employers who seek workers may call the Department and place job orders. Each order placed is occupationally specific. Each order, by itself, may be for more than one job opening. At the end of PY 1989, some 60,870 job orders were received by the Department. This represents an increase of 6.8 percent over the preceding program year (Refer to Table 1). Of the 40,464 employers in the State, some 16,926 or 41.8 percent placed job orders with the Department in PY 1989. On an average, each of these employers places over three job orders with the Department.

1/ PY 1989 began July 1989 and ended June 1990.
SOURCE: Utah Department of Employment Security, Labor Market Information (LMI) Services (ar)

The pattern of job openings by sector mirrors that of the two preceding years, PY 1987 and PY 1988. The leading industrial sector was Services (39.3%), followed by Wholesale/Retail Trade (20.3%) and Manufacturing (15.2%).

Self-help programs continue to occupy a significant position in the Department's effort to provide applicants with needed employability services. During PY 1989, some 10,892 individuals entered either Job Search Workshops or Job Finding Clubs. Approximately 76 percent of the participants in these programs obtained employment, an increase of 9.1 percent in PY 1989 over PY 1988 (See Table 3).

Federal law requires Job Service agencies across the country to track and serve individuals who earn more than half of their income performing seasonal farming work. Of particular concern are seasonal and migrant workers who travel from home on an overnight basis. These workers form the migrant stream which flows from state-to-state during the farm planting, growing, and harvesting seasons.

The number of active Migrant and Seasonal Farm Workers (MSFW's) declined in PY 1989. However, services in the form of counseling and job development contacts both increased by 56.6 percent and 13.4 percent, respectively (See Table 4). Although the number of active applicants placed during PY 1989 declined by 27.6 when compared to the previous year, the total number of individuals served increased by 157.5 percent over the same period.

1/ PY 1989 began July 1989 and ended June 1990.
SOURCE: Utah Department of Employment Security, Labor Market Information (LMI) Services. (ar)

PY 1989 continues to reflect the upward trend in the average hourly placement wage in Utah that was observed in PY 1988. For all applicants, the average hourly wage rate rose 3.1 percent over the preceding year. The average wage rate for both female and minority groups experienced the largest gains within the major applicant groups (See Table 5).

Tables 6 and 7 show the characteristics of applicants served by selected services and planning districts, and Employment Security Workload (Transactions) by local office in Program Year 1989, respectively. Statewide, the total number of applicants available in PY 1989 rose by 4.1 percent over PY '88. Of the 211,159 total applicants, 11,654 were counseled while 56,960 were placed and 12,631 provided job development contacts. This represents an increase of 10.5, 10.7, and 7.8 percent, respectively (See Table 6). Table 7 on the other hand, reveals a state total of 113,985 new applications in PY 1989, an increase of 1.6 percent over the preceding year. Of the total number of new applicants, 110,369 or 96.8 percent were renwals.

Tables 8 and 9 display Department revenues and expenditures during Fiscal Year (FY) 1989. Total revenues increased 2.9 percent in FY '89 over FY 1988. Although disbursement data may represent funds received in one year and expended during a subsequent year, total disbursements declined 15.1 percent over the same period.

Volume 2: Unemployment Insurance Statistics

# UNEMPLOYMENT INSURANCE STATISTICS

## SECTION I

## SUMMARY OF 1989 ACTIVITIES

# INSURED EMPLOYMENT

The UTAH EMPLOYMENT SECURITY ACT was enacted to lighten the financial burden of persons unemployed through no fault of their own. This is accomplished by paying workers for a limited time while they seek other employment. These payments lessen the economic impact of unemployment on the community by maintaining the purchasing power of the unemployed. Insured employment involves two types of employers. Experience-rated firms are private firms which are assigned a tax rate based upon each firm's usage of the unemployment insurance fund. Reimbursable organizations are nonprofit organizations and government units that reimburse the Utah Unemployment Insurance Reserve Fund for the actual cost of benefits that are paid to their former employees.

Insured employment in the State of Utah, which is 90% of total employment, rose by 5.0 percent in 1989 when compared to the level of employment in the previous year. This represents the largest increase in the number of jobs available since 1984. It is also a contributing factor in the continuing decline in insured unemployed. Experience rated firms (see footnote 1 on TABLE 1) had a 5.4 percent growth rate in employment in 1989. As was the case last year, the most significant growth in employment in percentage terms took place in the Service sector at 8.2 percent. Trade came in second with a 6.3 percent increase. The Trade and Service sector had the lowest average weekly wage. This is partially due to the substantial number of part-time workers in these sectors. The remaining industries experienced moderate growth in employment with the exception of Finance, Insurance and Real Estate and mining. These two segments had a drop in employment. Construction reversed the downward trend of the last few years and experienced a 3.6 percent increase. Reimbursable organizations (see footnote 2 on TABLE 1) showed an increase in employment of 3.0 percent. Nonprofit Organizations showed a healthy increase of 4.9 percent while Local and State Government agencies had moderate increases in employment.

# TOTAL AND TAXABLE WAGES

There were $11,770.9 million in wages paid in Utah during 1989 which represents an increase in total wages paid of $806.0 million over 1988. The average weekly wage increased from $355.91 in 1988 to $363.96 in 1989 which represent a 2.3 percent increase. However, the Consumer Price Index (CPI) increased 4.8 percent during the same period. This translates to a 2.5 percent loss of real income for Utahan's. No experience rated industry experienced any unusually high or low rate of average wage growth in 1989. Agriculture had the lowest rate of growth at 1.8 percent while the Transportation, communication, and Utilities segment experienced a growth rate of 4.3 percent. Among the Reimbursable Organizations, 1989 had a much slower wage growth rate than occurred in 1988. On average the Reimbursable Organizations saw a modest 1.8 percent growth rate in wages for 1989. State Government was on the low end at 1.3 percent, which was a substantial drop from the 1988 figure of 7.3 percent.

# CLAIMS ACTIVITY

During 1989, more people were working (5.0 percent increase over 1988) and fewer people were filing for unemployment. Those that did file drew benefits for a shorter period of time. The Insured Unemployment Rate (IUR) was 1.31 percent, the lowest since 1945. As in 1988, claims activity in 1989 decreased in most areas. However, the drop between 1988 and 1989 was not as large as the previous year's. Initial Claims (which includes new, additional and reopen counts) showed a decrease of 5,950 or 9.5 percent. Weeks claimed dropped by 67,458 or 13.7 percent. The amount of benefits paid decreased by over nine million dollars or 14.7 percent as compared to 1988. The maximum Weekly Benefit amount increased from $202 to $208 and the Average Weekly Benefit paid increased from $152.73 to $155.46. The number of First Payments dropped by 10.8 percent. The number of first payments relative to the number of eligible claimants showed a small drop from 79.4 percent in 1988 to 77.6 percent in 1989.

1/ Number of active firms as of December 31, 1989.
SOURCE: Utah Department of Employment Security, Labor Market Information (LMI) Services.

The Utah Department of Employment Security has the obligation to administer the unemployment insurance program. Part of that obligation is to allow all parties "due process" when a question arises concerning eligibility for benefits. There are four steps available to both the claimant and the employer when a question of eligibility arises. The first is a non-monetary determination discission issued by an adjudicator. The second is a re-determination by the adjudicator if new facts are revealed. The third is an appeal (lower appeal) which results in a hearing before an administrative law judge. The fourth is a review (higher appeal) of the issue by the Board of Review. If the issue isn't resolved after these steps it may be taken to the civil court system.

Nonmonetary Determinations increased in 1989 by 5.8 percent over 1988 even though there was a 9.5 percent drop in Initial Claims during the same period. There was 1.1 nonmonetary decisions issued for each initial claim filed. Of the 59,458 nonmonetary determination made, 50.7 percent resulted in a denial of benefits. Excluding Redeterminations, 69.8 percent dealt with availability issues as opposed to 23.6 percent which dealt with separation issues. From the 30,124 nonmonetary determination denials, 17.5 percent were appealed. Of those appealed, 72.9 percent were claimant appeals and resulted in 34.5 percent being ruled in favor of the claimant. Employers appeals accounted for 27.1 percent of the appeals filed in 1989. In 1983, before the direct charge back system was legislated, only 6.4 percent of appeals were initiated by employers. In 1989 there was 3,417 overpayments investigated. Of those 42.8 percent were determined to be the result of fraud. In dollar terms, overpayments amounted to the assessment of $1,203,509, of which 76.2 percent or $916,609 was recovered.

# *ACKNOWLEDGMENT*

Like most major publications, this year's Annual Report represents the efforts of a number of people. Toni Elorrieta and Ginger Yerovsek prepared the statistics and narrative describing Employment Service workload accomplishments for 1990. Doug McDowell and Robert Wood compiled data and wrote the narrative highlighting Unemployment Insurance workload activities for the past year. Patricia Ream and Ralph Horne made contributions to this narrative. Also, I wish to thank Ron Skocki and Gilda Robertson for their suggestions in our attempt to put this report together. Many thanks are extended to the Support Service staff: Joyce Larson, Barbara Watt, Debra Bonacci, D'Launa Rindlisbacher, Shelley Roberts, and Leslie Lund. Without their able and cheerful assistance, this report would never have come into publication. I want to extend a special thank you to Scott Wayne of *Wooten Photography* who took the professional photographs used at the front of this publication. In addition, I would like to thank Dwight Norris for his suggestions and the use of his computer equipment that enabled Robert Wood to combine and enhance the photographs for this year's cover graphics. Finally, thanks to Robert Wood and Toni Elorrieta for taking the initiative to create the layout and design of this year's Annual Report.

Gary Felker, Supervising Economist

EMPLOYMENT SERVICE ACTIVITIES
E.S.

# PART 1:

# SUMMARY

# OF

# 1990

# WORKLOADS

# EMPLOYMENT SERVICE ACTIVITIES FOR PROGRAM YEAR (PY) 1990

The following is a summary of the Utah Employment Service program which serves individuals seeking employment and employers needing workers. General services include interviewing, testing, counseling, taking job orders, recruiting workers, teaching job-seeking skills, and providing labor market information to applicants and employers.

This section provides a breakdown of the various services and the actual number of people served in each category. Also included is a ten year historical series. Please note that some data are not included for Program Year (PY) 1990, but will be provided in the future.

Table 1 shows that new applicants and renewals increased 1.4 percent over 1989 registration. Individuals placed, however, decreased from 56,960 in PY 1989 to 50,932 in PY 1990. Collectively, this indicates that more people were looking for work in PY 1990, but fewer people found jobs. Fewer individuals placed is a result of the decline in job openings (-13.7 percent year-over) and job orders received (-7.8 percent year-over). However, referrals increased five percent year-over. This signifies that Job Service interviewers referred more individuals who were competing for fewer available jobs.

## TABLE 1

| **JOB ORDERS** | | | |
| OPENINGS RECEIVED | 143,483 | 123,814 | -13.7% |
| ORDERS RECEIVED | 60,870 | 56,093 | -7.8% |

1/ PY 1990 began July 1990 and ended June 1991.
SOURCE: Utah Department of Employment Security, Labor Market Information and Research.

Individuals placed as a percent of new applicants and renewals (Table 2) declined 3.8 percentage points in PY 1990 to 28.1 percent. Another significant statistic is that obtained employment increased 6,600 in PY 1990 indicating that almost fifty percent more applicants found jobs on their own after receiving a service such as testing, participation in a Job Search Workshop, or development of an employability plan.

The number of active Migrant and Seasonal Farm Workers, MSFWs, (Table 3) declined in PY 1990 by 22.3 percent. Services in the form of counseling and job development contacts also decreased by 78.6 and 91.0 percent respectively. In fact, each service area for farmworkers declined. The primary reason for this decline of services is that fewer MSFWs came to Utah this year due to the sparse agricultural fruit crop resulting from early Spring freezes.

Table 4 indicates that the average hourly placement rate (average hourly beginning wage received at the time of placement to a job) increased for all sectors. In addition, most wages had already exceeded the mandated Spring of 1990 increase in the minimum wage to $4.25 per hour. During that period of time, Utah's Total Unemployment Rate (4.3%) and low Insured Unemployment Rate (1.25%) indicated a "tight" labor market. Most likely, the tightness in this market contributed to the observed movement in average wages.

1/ PY 1990 began July 1990 and ended June 1991.
SOURCE: Utah Department of Employment Security, Labor Market Information and Research.

The information in Table 5 includes characteristics of applicants served by selected services and planning districts. Services are broken down by key target groups. These key target groups are females, minority ethnic groups, handicapped individuals, and veterans.

Statewide, females represented 44.7 percent of the total applicants available for work. They received 37.8 percent of the total job development contacts. Women also represented 43.5 percent of the total individuals placed. This shows that females received a slightly lower proportion of services relative to their total number available for work.

Minorities comprised 12.2 percent of the population and received 15.1 percent of the job development contacts and 13.6 percent of the individuals placed were minorities. These ethnic groups--Blacks, Hispanics, American Indians, and Asians and Pacific Islanders--received an acceptable number of services because the proportion of services received exceeds their proportion of the total population.

The third group of concern is people who are handicapped. They embodied 4.6 percent of the total population, received 9.6 percent of the Job Development Contacts, and had 5.1 percent of their individuals placed in jobs. These numbers look good and indicate that Job Service is appropriately serving this key target group.

It appears that Job Service is serving the Veterans best. This group represented 7.3 percent of the population, received 16.2 percent of the Job Development Contacts, and 9.8 percent of the individuals placed were Veterans.

Overall, Table 5 demonstrates that Job Service is competently assisting the key target groups. Most groups received a higher proportion of services relative to their population size.

1/ PY 1990 began July 1990 and ended June 1991.
SOURCE: Utah Department of Employment Security, Labor Market Information and Research.

Placements by occupation are the main focus of Table 6. A comparison of 1990 data to 1989 indicates that ten of the thirteen occupational categories (Professional, Clerical, Sales, Nondomestic, Agricultural, Processing, Machine Trades, Benchwork, Packaging/Handling, and Other) declined year-over. This is of significant concern to Job Service. A combination of events explain these declines. Utah's economy experienced a relatively high rate of growth when compared to the nation's economy. Such a divergence in growth spurred in-migration of labor into Utah. The resultant augmentation to the labor supply yielded less dependence of Utah employers upon Job Service to meet their employment needs. With fewer jobs available through Job Service and a concomitant increase in employer hirings, individuals were motivated to seek employment elsewhere (registered applicants available for work declined by 1.4 percent year-over). As a consequence, Job Service's placements by occupation declined.

Department revenues and expenditures are displayed in Tables 7 and 8 for Fiscal Year (FY) 1990. Total revenue increased 5.5 percent in FY 1990 over FY 1989. Although disbursement data may represent funds received during a subsequent year, total disbursements declined 1.4 percent over the same period.

The remaining tables represent different historical series of Employment Service Activities.

* Data for 1990 is not available at this time.

1/ FY denotes Fiscal Year and covers the period from October to September. PY denotes Program Year and covers the period from July through June.

2/ In 1983, the reporting period was converted from fiscal year to program year.
As a result, PY 1983 represents a nine month transition year beginning October 1983 and ending June 1984.

1/ Many persons are placed in more than one job during the year. So, the total placement transaction count is higher than the count of individuals placed. Also, FY denotes Fiscal Year and covers the period from October to September. PY denotes Program Year and covers the period from July through June.

2/ In 1983, the reporting period was converted from fiscal year to program year. As a result, PY 1983 represents a nine month transition year beginning October 1983 and ending June 1984.

UNEMPLOYMENT INSURANCE STATISTICS
U.I.

# PART 1:

# SUMMARY

# OF

# 1990

# WORKLOADS

# INSURED EMPLOYMENT

Unemployment insurance, as provided under the Utah Employment Security Act, is paid to workers who through no fault of their own, are forced to seek other employment. The program provides those who are available, but out of work, an income while they seek related work. The program also lessens the economic impact of worker displacement by maintaining the purchasing power of the unemployed. Claims for unemployment benefits involve two types of employers. Experience rated employers are private sector employers who are assigned a tax rate based on their past usage of the unemployment insurance fund. Reimbursable organizations are nonprofit and government units that reimburse the Utah Unemployment Insurance Reserve Fund for the actual cost of benefits that are paid to their former employees. Insured employment figures include the number of workers who either fall under statutorial provisions or whose employers provide reimbursement to the fund. Insured employment is close to 90 percent of total employment.

Overall, insured employment grew 5.2 percent in 1990, the largest growth rate since 1984. A recent pattern of high employment growth in the service sector of Utah's economy continued during 1990. The service sector added 12,216 new jobs in 1990, a percentage change of 9.8 percent over 1989. However for nonagricultural jobs the trade and service sectors continue to have the lowest average weekly wages. In terms of employment numbers all other sectors showed some growth. Construction continued to improve from the 1985-1987 slump, posting a 7.6 percent increase. The mining, manufacturing, and transportation-communication-utilities sectors all showed moderate growth. In total, insured employers added 32,180 new jobs. Reimbursable organizations showed growth of 4.2 percent with state and local government adding an additional 3,786 new jobs.

# TOTAL AND TAXABLE WAGES

During 1990, 12,845.8 million in wages were paid by insured Utah Employers. This was an increase of $1,075 million over 1989. The average weekly wage increased from $363.96 to $377.65, an increase of 3.8 percent over 1989. However, the consumer price index increased 5.4 percent during the same period. This means average Utahn's experienced a loss in real buying power of 1.6 percent. Service sector wages increased by an average of 5.3 percent but still are lower than all other categories. The lowest percentage change in wages occurred in mining and construction at 2.4 percent. Reimbursable organization employees fared better than most private sector areas posting a 4.9 percent increase in wages.

# CLAIMS ACTIVITY

Although in 1990 initial claims increased by 10.4 percent, total weeks claimed and weekly average claims decreased. This indicates that those who were unemployed were out of work less time. The fact that the unemployment period was smaller on average is also reflected in the decline in the number of individuals exhausting their unemployment benefits. The insured unemployment rate was down from 1.31 percent in 1989 to 1.25 percent in 1990.

In 1990, the maximum weekly benefit was changed from $208 to $214. Although benefit amounts were increased, the lower number of weeks claimed resulted in benefit payouts decreasing by 1 percent or $500,606. The average weekly benefit was $156.08 a slight increase over 1989. The number of first payments relative to eligible claimants increased from 77.6 percent in 1989 to 81.9 percent in 1990.

1/ Number of reporting units as of December 31.
SOURCE: Utah Department of Employment Security, Labor Market Information (LMI) Services.

The Utah Department of Employment Security has the obligation to administer the unemployment insurance program. Part of that obligation is to allow all parties "due process" when a question arises concerning eligibility for benefits. There are four steps available to both the claimant and the employer when a question of eligibility arises. The first is a nonmonetary determination decision issued by a claim adjudicator. The second is a re-determination by the adjudicator if new facts are revealed. The third is an appeal (lower appeal) which results in a hearing before an administrative law judge. The fourth is a review (higher appeal) of the issue by the Board of Review. If the issue isn't resolved after these steps it may be taken to the civil court system.

Nonmonetary Determinations decreased in 1990 by 0.8 percent. There was almost one nonmonetary decision issued for each initial claim filed. Of the 59,011 nonmonetary determinations made, 49.6 percent resulted in a denial of benefits. Excluding redetermination, 41.4 percent of nonmonetary determinations concerned separation issues.

The number of appeals increased in 1990 by 5.8 percent. Claimant appeals accounted for 73.8 percent of the total lower appeals filed and employers accounted for 26.2 percent.

Overpayment cases were down 12.0 percent from 1989. Of the overpayment cases, 42.4 percent were determined to be the result of fraud. In terms of dollars overpayments amounted to $1,191,719 with $882,363 being recovered for a 74.0 percent recovery rate.

GLOSSARY OF TERMS

# GLOSSARY

AGENT STATE - UI The State in which a claimant files an interstate claim for compensation against another (liable) State where wages were earned.

APPLICANT (NEW) - ES A person who files a new, first-time application for services with a local office of the state Job Service agency, during a twelve month period that begins in July of the year.

AVERAGE ACTUAL DURATION FOR TOTAL UNEMPLOYMENT - UI The weeks of total unemployment compensated during a year divided by the number of first payments for total unemployment issued during the year.

AVERAGE POTENTIAL DURATION - UI The number of weeks of full benefits to which claimants are potentially entitled within their benefit years or other compensation periods divided by the number of such claimants.

AVERAGE WEEKLY BENEFIT AMOUNT FOR TOTAL UNEMPLOYMENT - UI The amount computed by dividing the amount of compensation paid for total unemployment during a given period by the corresponding number of weeks for which compensation for total unemployment was paid.

CLAIM - UI A filed notice of unemployment requesting a determination of benefit entitlement and compensation eligibility for a weekly benefit or a waiting period credit.

CLAIMANT - UI A person who files either an initial claim or a continued week claim under (1) any state or federal unemployment compensation program, or (2) any other program administered by the state Job Service agency.

CLAIMANT FRAUD - UI The willful misrepresentation or non-disclosure of a material fact by a claimant for the purpose of obtaining benefits to which the individual is not entitled.

COMPENSATION - UI Money payments to individuals with respect to their unemployment, which includes regular, additional, and extended benefits (emergency compensation). Excludes assistance and allowance payment of Disaster Unemployment Assistance and Trade Readjustment Allowances.

COUNSELING SERVICES - ES Vocational counseling is legislatively mandated to be available for veterans and the handicapped, and can serve other populations who need information to become job ready.

EMPLOYER VISIT AND TELEPHONE CONTACT - ES A visit or telephone call made by a local office staff member to an employer's establishment (including union and employer organizations that are either employers or serve as hiring agents for employers, or that influence the hiring practices of employers) for one or more of the following purposes: (1) to explain or emphasize the services available to the employer through the employment service and to solicit the employer's cooperation with participation in ES manpower programs by listing his job openings with the ES local office in all occupations and skills; (2) to discuss and resolve questions or problems related to the filling of existing job orders, and/or (3) to provide nontechnical assistance in the solution of the employer's workforce problems.

EXPERIENCE RATING - UI A method for determining the contribution rates of individual employers on the basis of the factors specified in the State unemployment compensation law for measuring employer's experience with respect to unemployment.

EXTENDED BENEFITS (EB) - UI The supplemental program that pays extended compensation during periods of specified high unemployment to individuals for weeks of unemployment after (1) they draw the maximum potential entitlement to regular compensation within their benefit year or (2) after their benefit year ends while they are in continued unemployment status and have insufficient wage credits to establish a new claim provided, however, that the extended benefit period in the state began prior to the end of their benefit year. Extended benefits paid to claimants under state unemployment compensation law are jointly financed on a 50-50 basis by state and federal funds; extended benefits paid to Unemployment Compensation for Federal Employees (UCFE) and Unemployment Compensation for Ex-Servicemen (UCX) claimants are totally financed by federal funds.

FARMWORKER - ES A person who performs work for wages in agricultural production or agricultural services.

FEDERAL CONTINGENCY FUND - UI Money appropriated by Congress to meet certain unpredictable increases in costs of administration by state agencies arising from increases in workload or other specified causes.

FILLED OPENING - ES A job opening for which an applicant referred by a local office has been hired by an employer and has started the job.

FINAL PAYMENT - UI The last payment to a claimant that exhausts the individual's maximum potential benefit entitlement under a specific program.

FIRST PAYMENT - UI Payment for the first compensable week of unemployment claimed by an individual under an unemployment insurance program.

HANDICAPPED - ES Any individual who has a physical or mental impairment which for such individual constitutes or results in a substantial limitation to employment, and is not a Disabled Veteran or a Special Disabled Veteran.

INITIAL CLAIM - UI Any notice of unemployment filed (1) to request a determination of entitlement to and eligibility for compensation, or (2) to begin a second or subsequent period of unemployment within a benefit year or period of eligibility.

INTERVIEW - ES

APPLICATION INTERVIEW A face-to-face discussion between an employment service interviewer and an applicant for the purpose of (1) obtaining information about the applicant's qualifications for work; (2) ascertaining any need the applicant may have for employment counseling; and (3) providing information which may increase the applicant's opportunities for placement.

COUNSELING INTERVIEW A face-to-face interview in which an Employment Counselor or Counselor Trainee (1) helps an applicant resolve problems of occupational choice, occupational change, or job adjustment; and (2) obtains and records on the application and/or other appropriate applicant records one or more of the following: (a) a summary statement describing the

counseling problem; (b) additional information contributing to a sharper definition of the problem or to its solution; (c) a statement of an occupational plan or recommendations for the solution of the problem; and/or (d) when pertinent, a statement elicited in the course of follow-up concerning progress in carrying out the counseling plan and any further services needed.

INSURED UNEMPLOYMENT - UI Unemployment during a week for which waiting period credit or benefits are claimed under the regular compensation programs, supplemental extended benefit programs, or the railroad unemployment insurance program.

INTERSTATE CLAIM - UI A claim filed in one (agent) state based on monetary entitlement to compensation in another (liable) state.

JOB DEVELOPMENT CONTACT - ES The process of soliciting a public or private employer's job interview for a specific individual for whom a program sponsor has no suitable opening currently on file.

JOB OPENING - ES A single job opening for which the local office has on file a request to select and refer an applicant or applicants.

JOB ORDER - ES A single request for referral of one or more applicants to fill one or more job openings in a single occupational classification.

LIABLE STATE - UI The State against which a worker files a claim for compensation through the facilities of another (agent) State.

MAXIMUM POTENTIAL DURATION - UI The highest number of weeks of total unemployment for which benefits are payable to any claimant in a benefit year or other period of eligibility under a state or federal unemployment compensation law.

MAXIMUM WEEKLY BENEFIT AMOUNT - UI The highest weekly benefit amount for a week of total unemployment as provided under a state or federal unemployment compensation law.

MIGRANT FARMWORKER - ES A seasonal farmworker who had to travel to do the farmwork so that he/she was unable to return to his/her permanent residence within the same day. Full-time students traveling in organized groups rather than with their families are excluded.

MINIMUM POTENTIAL BENEFIT AMOUNT - UI The smallest amount of benefits for weeks of total unemployment that an individual may receive under a state or federal unemployment compensation law.

MINIMUM WEEKLY BENEFIT AMOUNT - UI The lowest weekly benefit amount for a week of total unemployment as provided in a state unemployment compensation law.

MINORITY GROUP - ES, UI Individuals Not Classified as "White, Not Hispanic," or "INA" (Information Not Available ) under Race/Ethnic Group.

BLACK A person having origins in any of the black racial groups of Africa.

HISPANIC A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race. Among persons from Central and South American countries, only those who are of Spanish origin, descent, or culture should be included in the Hispanic category.

AMERICAN INDIAN/ALASKAN A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.

ASIAN/PACIFIC ISLANDER A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.

MONETARY DETERMINATION - UI A written notice issued to inform an individual whether or not the individual meets the employment and wage requirements necessary to establish entitlement to compensation under a specific program, and, if entitled, the weekly and maximum benefit amounts the individual may receive.

OBTAINED EMPLOYMENT - ES Total transactions recorded which are controlled by: The hiring by a public or private employer of an ES applicant resulting from an activity listed below that was wholly or partially funded by ES: (a) within 90 calendar days of participation in an ES Job Search Workshop or Job Finding Club, (b) within 90 calendar days of receiving employment counseling, testing, or development of an employability plan, (c) before expiration of the tax credit voucher, (d) within 90 calendar days of receiving bonding assistance, or (e) within 90 calendar days of termination from a training program in which any ES applicant was placed by the ES agency. (The ES applicant subsequently either may have found own job or been placed in an unsubsidized job by the training program.) Verification must have also been received from a reliable source, preferably the employer, that the applicant has obtained employment and such employment does not meet the definition of placement.

OLDER WORKER - ES, UI An applicant or claimant who is 40 years old or older and is encountering or may be expected to encounter difficulty in securing and maintaining employment because of age.

PLACED IN TRAINING- ES An applicant for whom a notification or other specified form is received which indicates that the applicant is placed in the training designated on the form.

PLACEMENT - ES The hiring by a public or private employer of an individual referred by the employment office for a job or interview, provided that the employment office completed all of the following items: (a) prepare a job order form prior to referral, except in the case of a job development contact on behalf of a specific applicant; (b) made prior arrangements with the employer for the referral of an individual or individuals; (c) referred an individual who had not been specifically designated by the employer, except for referrals on agricultural job orders for a specific crew leader or worker; (d) verified from a reliable source, preferably the employer, that the individual had entered on a job; and (e) appropriately recorded the placement.

POTENTIAL DURATION - UI The total number of weeks of total unemployment for which an individual claimant may receive benefits in a benefit year or period of eligibility under the entitlement provisions of a state or federal unemployment compensation program or any other program administered by a state agency.

RATE OF INSURED UNEMPLOYMENT - UI The number of insured weeks claimed as a percentage of UI covered workers.

REFERRAL - ES The act of bringing to the attention of an employer, a local office, a training sponsor, or a supportive service agency, an individual (or group of individuals) who need a job, training, or a related supportive service.

RENEWAL - ES The transfer from the inactive to the active file of the application of an applicant who is again considered to be available for referral to job openings.

REPORTABLE SERVICES - ES Services refer to manpower activities related to training and employment efforts which are provided by employment service offices and which are designed to result in the training and/or employment of the applicant. Included among these services are the following: counseling, testing, job development contact, referral to training, referral to supportive service, job referral, and placement.

SEASONAL FARMWORKER - ES A person who, during the preceding 12 months, worked at least an aggregate of 25 or more days or parts of days in which some work was performed in farmwork, earned at least half of his/her income from farmwork, and was not employed in farmwork year round by the same employer. For the purposes of this definition only, a farm labor contractor is not considered an employer. Non-migrant individuals who are full-time students are excluded.

SEPARATION NOTICE - ES, UI An employer's report of the separation of one or more of his workers showing the date and reason for the separation and such other information as may be requested by the state employment security agency.

SEPARATIONS - ES, UI All terminations of employment, generally classifiable as layoffs, quits, discharges, or other separations, as provided under applicable state laws. Transfers within the establishment or from regular activities to temporary construction activities are not considered as separations. Also, for ES purposes, a suspension from pay status with definite instructions for the employee to return to work within 7 consecutive days is not considered as a separation. Transfers from one establishment to another establishment of the same company or included in "other separations." When requesting information from employers, the following definitions should be used:

DISCHARGES A discharge is termination of employment initiated by the employer for such reasons as incompetence, violation of rules, dishonesty, laziness, absenteeism, insubordination, failure to pass probationary period or misconduct.

LAYOFFS A layoff is a suspension from pay status (lasting or expected to last more than 7 consecutive calendar days without pay for ES purposes and one or more days for UI purposes) initiated by the employer without prejudice to the worker for such reasons as: lack of orders, model changeover termination of seasonal or temporary employment, inventory-taking, introduction of labor saving devices, plant breakdown, shortage of materials; include temporarily furloughed employees and employees placed on unpaid vacations.

OTHER SEPARATIONS Terminations of employment for military duty lasting or expected to last more than 30 calendar days, retirement, death, permanent disability, failure to meet the physical standards required, and transfers of employees to another establishment of the company.

QUITS A quit is a termination of employment initiated by the employee for any reason except to retire, to transfer to another establishment of the same firm, or for service in the Armed Forces. Include a person who fails to report after being hired (if previously counted as an

accession) and an authorized absence if on the last day of the month the person has been absent more than 7 consecutive calendar days.

SUPPORTIVE SERVICES - ES Services supplemental to employment or training.

HEALTH A public or private agency or individual who provides medical, dental, or psychiatric examination or treatment.

REMEDIAL An agency or community group which has agreed to provide remedial service such as improvement of reading skills or speech training.

REFERRED TO JTPA Referral of an applicant to the Job Training Partnership Act (JTPA) program by an employment service local office that was not handling the JTPA intake function (registrant for JTPA program under Titles II or III).

OTHER An agency or community group which provides a supportive service (other than training) which the employment service is not equipped to provide and which is not included under rehabilitation, health, welfare, or remedial.

TESTING - ES This refers to tests and assessment techniques utilized by the public employment service to evaluate individuals for selection and referral to jobs, training, or vocational counseling.

TESTS - ES A standardized means of measuring an individual's possession of, interest in, or ability to acquire, job skills and knowledge.

TOTAL APPLICANTS - ES All applicants active as of July 1 plus all applicants who received a New, New Partial, or Renewal during the current Program Year. Each applicant is counted only once. All applicants active at anytime during the Program Year are counted.

TOTAL UNEMPLOYMENT - UI Total unemployment is defined in State Unemployment Insurance (UI) law. It is usually a week in which an individual claiming UI performed no work and with respect to which no remuneration is payable. In some states, specified small amounts of odd-job earnings are disregarded.

TRAINING - ES A planned, systematic sequence of instruction or other learning experience on an individual or group basis under competent supervision, which is designed to impart skills, knowledge, or abilities to prepare individuals for employment.

UNEMPLOYMENT COMPENSATION (UC) - UI The state programs that provide benefits to individuals covered under state and federal unemployment compensation laws, supplemental extended compensation (payable to eligible individuals under other provision of state and/or federal laws during periods of high unemployment) and other special programs which compensate individuals involved in situations which adversely affect their employment status through no fault of their own.

UNEMPLOYMENT COMPENSATION FOR EX-SERVICEMEMBER (UCX) - UI The federal program that provides benefits to ex-servicemember established by 5 United States Code, Chapter 85.

UNEMPLOYMENT INSURANCE FOR FEDERAL EMPLOYEES (UCFE) - UI The program term which encompasses all state and federal unemployment compensation laws and related programs administered by the state and federal unemployment insurance services.

UNEMPLOYMENT TRUST FUND - UI A fund established in the Treasury of the United States which contains all monies deposited by state agencies to the credit of their unemployment fund accounts and federal unemployment taxes collected by the Internal Revenue Service (IRS).

VETERAN - ES A person who (a) served on active duty for a period of more than 180 days and was discharged or released therefrom with other than a dishonorable discharge, or (b) was discharged or released from active duty because of a service-connected disability.

VIETNAM ERA VETERAN A veteran (see definition above) who served on active duty for a period of more than 180 days, any part of which occurred during the Vietnam Era, the period beginning August 5, 1964 and ending May 7, 1975.

DISABLED VETERAN A veteran (see definition above) entitled to disability compensation (or who but for the receipt of military retired pay, would be entitled to compensation) under laws administered by the Veterans Administration, including veterans who are classified as Special Disabled Veterans defined below.

SPECIAL DISABLED VETERAN A veteran (see definition above) entitled to disability compensation (or who but for the receipt of military retired pay, would be entitled to compensation) under laws administered by the Veterans Administration for a disability (1) rated at 30 percent or more, or (2) rated at 10 or 20 percent in the case of a veteran who has been determined by the Veterans Administration to have a serious employment handicap; or a person who was discharged or released from active duty because of a service-connected disability.

WAGES - ES, UI

AVERAGE WEEKLY WAGES (1) For an individual worker, the result obtained by dividing his or her total wages in a specified period either by the total number of weeks in the period or by the number of weeks for which wages were payable to him or her during the period. (2) For a group of workers, the result obtained by dividing the total wages for one or more quarters by the number of weeks in the period, and then dividing by the average monthly employment for the payroll period including the 12th of each month during the period.

WEEK OF PARTIAL UNEMPLOYMENT - UI A week in which an individual works less than regular full-time hours for his/her regular employer because of lack of work, and earns less than the amount normally paid for full-time weekly wage but more than the allowable earnings prescribed by the state unemployment compensation law, so that, if eligible, the individual received less than his/her full weekly benefit payment.

WEEK OF PART-TOTAL UNEMPLOYMENT - UI A week of otherwise total unemployment in which an individual has odd jobs or subsidiary work with other than the individual's regular employer with earnings in excess of the allowable earnings prescribed by the state unemployment compensation law, so that, if eligible, the individual received less than his/her full weekly benefit payment.

WEEK OF TOTAL UNEMPLOYMENT - UI A week in which an individual performs no work and earns no wages or has less than full-time work and earns not more than the allowable earnings prescribed in the state unemployment compensation law, so that, if eligible, the individual receives his/her full weekly benefit amount. (An exception may be the final payment when an individual's benefit balance would preclude payment of the full weekly benefit amount or if the weekly benefit amount is reduced due to income from items covered under deductions from the Weekly Benefit Amount).

WEEKLY BENEFIT AMOUNT - UI The amount payable to a claimant for a compensable week of total unemployment.

WEEKS CLAIMED - UI The weeks covered by intrastate continued claims and interstate continued claims for which waiting period credit or payment of compensation is requested. A week for which excessive earnings are reported does not constitute a claim for a week of unemployment. However, when other deductible income exceeds the weekly benefit amount it is to be considered a week claimed.

WEEKS COMPENSATED - UI The number of weeks claimed which are actually paid.

WORKLOAD - ES, UI The measure of the volume of work for each functional area of operation in the state agency; e.g., the number of contribution payroll reports processed, the number of applicants for employment, etc.

# *ACKNOWLEDGMENT*

Like most major publications, this year's Summary of Job Service Activities represents the efforts of a number of people. Toni Elorrieta and Gilda Robertson prepared the statistics and narrative describing Employment Service workload accomplishments for 1991. Doug McDowell and Robert Wood compiled data and wrote the narrative highlighting Unemployment Insurance workload activities for the past year. Also, I wish to thank Ron Skocki, Gilda Robertson, and Brad Franchina for their suggestions that enhanced this report. Many thanks are extended to the Support Service staff: Joyce Larson, Barbara Watt, Debby Bonacci, Shelley Roberts, and Leslie Lund. Without their assistance, this report would never have come into publication. In addition I would like to thank Brad Franchina for designing this year's cover.

Gary Felker, Supervising Economist

# *SECTION 1*

# Employment Service Activities

# PART 1:

# Summary of 1991 Workloads

The following summary for Program Year (PY) 1991 focuses on the Utah Employment Service program which serves individuals seeking employment and employers needing workers. General services include interviewing, testing, counseling, taking job orders from employers needing workers, recruiting workers, referring potential employees to jobs, teaching job-seeking skills, and providing labor market information to applicants and employers.

The Employment Service section provides a breakdown of the various services and the actual number of people served in each category. Also included is a ten year historical series. This year's summary integrates this historical information and attempts to show graphically Job Service's accomplishments.

The information in Table 1 and Table 2 emphasize several points. New Applications and Renewals increased 3.4 percent over 1990 registration. However, individuals placed in jobs fell by over 2,600. Collectively, this indicates that more people were looking for work in PY 1991, but fewer people found jobs. Fewer individuals placed resulted from the decline in job openings (-8.6 percent year over) and job orders received (-8.8 percent year over). However, referrals increased 2.6 percent year over. This signifies that Job Service interviewers referred more individuals to the jobs that were available.

Chart 1 illustrates the increase in New Applications and Renewals from Program Year 1987 to 1991. One significant factor contributing to this rising trend was the substantial turn-around of net in-migration to the state. Utah's increased economic growth was a magnet for people from neighboring states such as California. The growing tendency for families

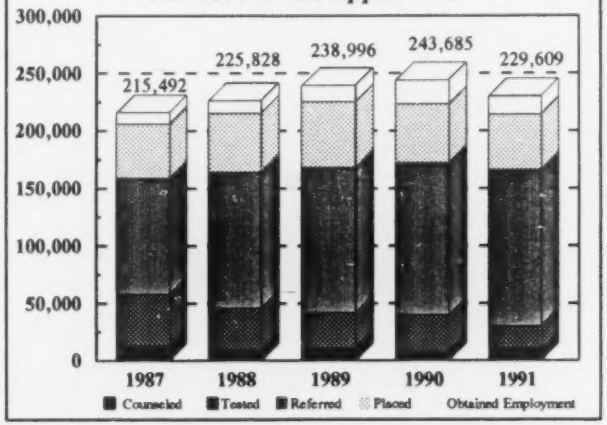
to have dual incomes and Utah's relatively young population also contributed to the increased number of New Applications and Renewals.

Services provided to All Applicants (Chart 2) increased from 1987 to 1990. Then, in 1991, services provided decreased by approximately 14,000. This decrease can partially be explained due to the discontinued use of the General Aptitude Test Battery (GATB) for pre employment testing. The test had been used to refer applicants, who had scored well in aptitudes, to employers with related job openings. The Department of Labor decided to end the use of the GATB as a pre-employment test at Job Service Offices across the nation due to problems related to scoring the test fairly among various race and ethnic groups. In addition to the large decrease in testing, fewer individuals placed in jobs also contributed to the decrease in total services in PY 1991.

***CHART 2***
***Services to All Applicants***



The number of active Migrant and Seasonal Farm Workers, MSFWs, (Table 3) increased in PY 1991 by 36.8 percent. Many of Utah's crops were damaged by a late spring freeze in PY 1990. This reduced the total crop output significantly causing a lower number of available jobs. In PY 1991 the weather was more favorable than in previous years. Better conditions increased the overall demand for farm workers which drew more migrants into the state. Another important contributing factor is that Oregon received heavy rains during some of the crop picking activities. This damaged Oregon's crops and many of the workers from Oregon came to Utah seeking employment. These events accounted for the increase in active applicants in PY 1991.

SOURCE: Utah Department of Employment Security, Labor Market Information and Research.

On the other hand, MSFWs placed declined by twenty percent year over. With the increased demand for workers, one would have expected a proportionate increase in individuals placed. However, many of the farmers, who were pleased with the quality of workers the previous year, rehired the same workers in PY 1991. Also, one of the major agricultural employers in Utah hired workers through a labor contractor, thus, the number of applicants placed by Job Service decreased. A noticeable increase occurred in job development contacts. Job Service interviewers attempted to help MSFWs find work by contacting potential employers and soliciting job openings. However, since many of the farmers hired workers from previous years, additional jobs were not readily available. Finally, the increases in "Referred to Supportive Services" and "Provided Some Reportable Service" were also directly related to the lower number of Job Service openings due to the rehiring factor. Since Job Service did not have openings for these MSFWs, the interviewers provided skills training to enhance the applicant's abilities, thus, helping individuals become qualified for more or better jobs.

Table 4 indicates that the average hourly placement rate (average hourly beginning wage received at the time of placement to a job) increased for all sectors. One factor that affected the hourly placement rate was the tighter job market. Utah experienced a low total unemployment rate (4.4%) which forced wages up.

Encompassed within Employment Service is another program called the Targeted Jobs Tax Credit Program (TJTC). The intent of Congress for the TJTC program has always been to provide an incentive in the form of tax credits to employers who hire individuals from any of nine target groups, who traditionally have had difficulty obtaining and securing jobs. Utah's TJTC program is operated through a central office in Salt Lake City. During 1991, the TJTC staff processed 3,162 eligibility determinations and authorized 1,477 employer tax credit certifications.

The information in Table 5 includes characteristics of applicants served by selected services and planning districts. Services are broken down by key target groups. These key target groups are females, minority ethnic groups, disabled individuals, and veterans. Statewide, females represented 43.3 percent of the total applicants available for work. They received 47.5 percent of the total services (counseling, testing, training, job development contacts, and

SOURCE: Utah Department of Employment Security, Labor Market Information and Research.

placements) provided by Job Service. Women also represented 42.6 percent of the total individuals placed. This shows that females received a slightly higher proportion of services relative to their total number available for work.

Minorities comprised 12.2 percent of the population, received 12.7 percent of the total services, and 13.6 percent were placed in jobs. These ethnic groups--Blacks, Hispanics, American Indians and Alaskan Natives, and Asians and Pacific Islanders--received services more than in proportion to their total population of applicants available for work.

The third group of concern is people who were disabled. They comprised 5.8 percent of the total population, received 6.8 percent of the total services and 5.8 percent were placed in jobs. New legislation stated that even if a Job Service interviewer saw a physical handicap, the interviewer could not make an analysis of the individual's circumstances. Therefore, one may have expected that services to people with disabilities may slightly decrease because many individuals do not see themselves as disabled and may not identify themselves as such on a Job Service application.

It appeared that Job Service served Veterans best. This group represented 7.8 percent of the population, received 11.7 percent of the Total Services, and 9.9 percent were placed in jobs. Job Service aided all individuals in finding employment, however, Veterans received first priority. Therefore, as expected, the Veteran population received services more than in proportion to its share of the applicant population.

Overall, Table 5 demonstrates that Job Service assisted the key target groups in PY 1991. Most groups received a higher proportion of services relative to their population size. Although the percentages may look low (5.8 percent, 9.9 percent), they are actually high when compared to the population size.

Table 6 represents transactions Statewide and by Local Office. Department revenues and expenditures are displayed in Tables 7 and 8 for Fiscal Year (FY) 1991. The remaining tables represent different historical series of Employment Service Activities.

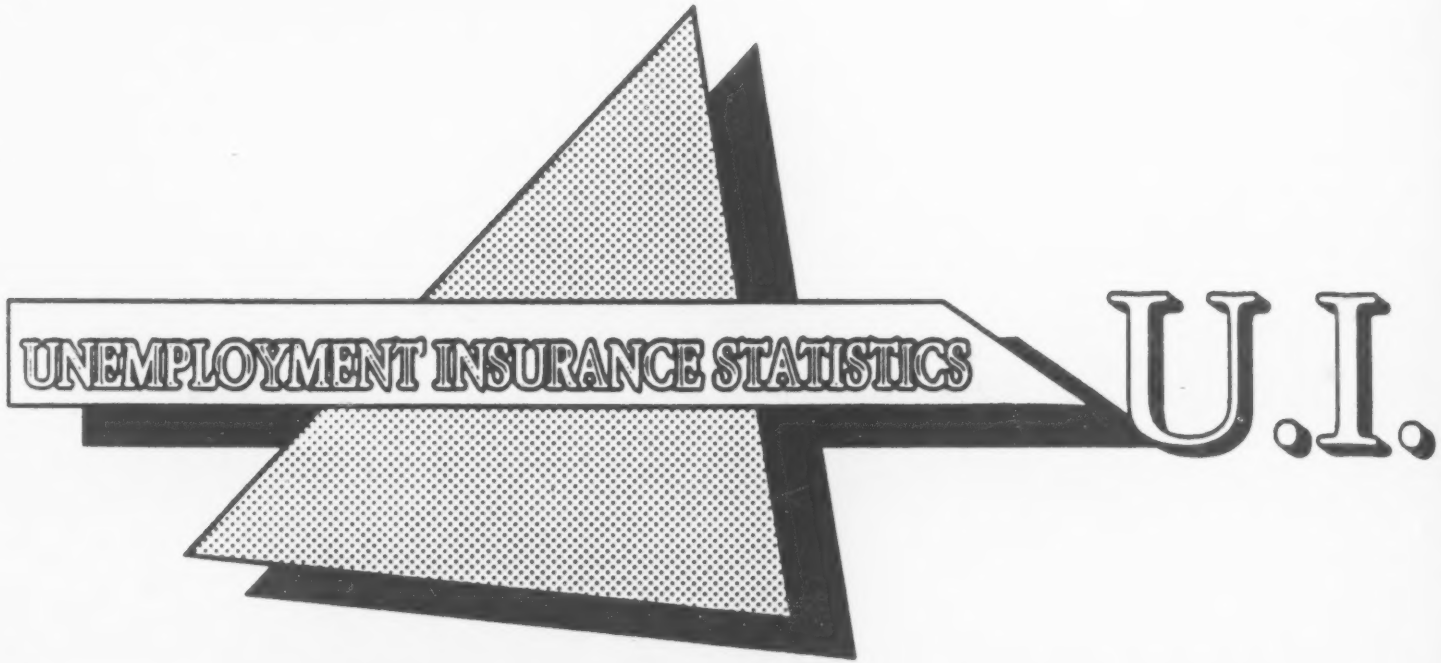
# *SECTION 2*

# Unemployment Insurance Statistics

# PART 1:

# Summary of 1991 Workloads



The UTAH EMPLOYMENT SECURITY ACT was enacted to lighten the financial burden of the unemployed. This is accomplished by paying benefits to workers while they seek other employment. Also, these payments lessen the economic impact of unemployment on the community by maintaining the purchasing power of the unemployed.

Insured employment consists of two types of employers. Experience-rated employers are private company's that are assigned a tax rate based upon each firm's experience with unemployment. Reimbursable organizations are nonprofit organizations and government units that reimburse the Utah Unemployment Insurance Reserve Fund for the actual cost of benefits that are paid to their former employees.

Insured employment in the State of Utah, which is about 95% of total employment, rose by 3.5 percent in 1991 when compared to the level of employment in 1990. This 3.5 percent looks even better when compared to the -0.9 percent drop in 1991 employment on the national level. Experience rated employer worksites had a 3.2 percent growth rate in employment in 1991. Looking at the percentage changes, the most outstanding figure is the 13.3 percent increase in construction employment. Agriculture had the second highest gain with a 9.1 percent increase. Mining and manufacturing had small declines in jobs. Reimbursable organizations showed an increase in employment of 4.5 percent. Nonprofit Organizations experienced a 5.6 percent growth which represents an additional 1,383 jobs for this sector of the labor market. Also, State and Local Government agencies had increases in employment above the 3.5 percent state level.

SOURCE: Utah Department of Employment Security, Labor Market Information (LMI) and Research.

There was $13,809.7 million in insured wages paid in Utah during 1991. This represents an increase in total insured wages paid of $963.9 million over 1990. The average weekly wage increased 3.9 percent from $377.65 in 1990 to $392.37 in 1991. The national Consumer Price Index (CPI) increased 4.2 percent during the same period. Using this comparison, Utah workers did not keep up with the nation in buying power. No experience-rated industry showed any unusually high or low rate of average weekly wage growth in 1991. However, even though Agriculture had a 9.1 percent increase in employment, they experienced only a 2.7 percent increase in average weekly wage. The same comparison can be pointed out in construction. They had a 13.3 percent increase in employment, but only a 4.0 percent increase in the average weekly wage. Theoretically an increase in demand for workers would force up the wage, but at least in the short run, it hasn't. Among the Reimbursable Organizations, 1991 produced a very average growth rate in wages.

Claims activity increased in all categories during 1991 compared to 1990. Initial Claims (which include new, additional, and transitional counts) showed an increase of 12.7 percent. Weeks claimed increased by 24.2 percent. This indicates that not only were more people becoming unemployed, but they were staying out of work for longer periods of time. Accordingly, the amount of benefits paid increased by close to fifteen million dollars, or 25.7 percent as compared to 1990. Part of the raise in benefits paid was due to an increase in the maximum Weekly Benefit amount from $214 to $221. The Average Weekly Benefit paid increased from $156.08 to $160.04. The number of First Payments increased 16.5 percent and the number of claimants exhausting benefits increased by 24.7 percent. This is another indication that claimants were having a difficult time finding work.

On November 17,1991, the Emergency Unemployment Compensation (EUC) program became effective. Counts for this program can be found on Tables 11, 12 and 13. EUC workload counts are not included in any of the other Tables.

SOURCE: Utah Department of Employment Security, Labor Market Information and Research.

The Utah Department of Employment Security has the obligation to administer the unemployment insurance program. Part of that obligation is to allow all parties "due process" when questions of eligibility for benefits arise. There are four steps available to both the claimant and the employer in such cases. The first is a nonmonetary determination decision issued by an adjudicator. The second is a redetermination by the adjudicator if new facts are revealed. The third is an appeal (lower appeal) which results in a hearing before an administrative law judge. The fourth is a review (higher appeal) of the issue by the Board of Review. This Board includes a representative from the Industrial Commission, labor, and management. If the issue isn't resolved after these steps, it may be taken to the civil court system.

Nonmonetary Determinations (issues not related to monetary eligibility) increased in 1991 by 12.0 percent over 1990. This reflects the increase in 1991 initial claims. A little over half (51.1 percent) of these decisions resulted in denial of benefits. Excluding redetermination, 26.7 percent of the decisions dealt with separation issues and 73.3 percent involved nonseparation issues.

From the 33,801 nonmonetary denials, 6,225 or 18.4 percent were appealed. Of those appealed, both lower and higher, 72.5 percent were claimant appeals and 27.5 percent were filed by employers.

In 1991 there were 3,188 overpayment cases investigated. Of these cases, 1,222 were found to be fraud cases, resulting in the establishment of overpayments in the amount of $605,168. Close to 81 percent of this amount was recovered. Non-fraud overpayments amounted to $1,301,005, of which 48.4 percent or $630,017 were recovered.

GLOSSARY OF TERMS

# GLOSSARY

AGENT STATE - UI The State in which a claimant files an interstate claim for compensation against another (liable) State where wages were earned.

APPLICANT (NEW) - ES A person who files a new, first-time application for services with a local office of the state Job Service agency, during a twelve month period that begins in July of the year.

AVERAGE ACTUAL DURATION FOR TOTAL UNEMPLOYMENT - UI The weeks of total unemployment compensated during a year divided by the number of first payments for total unemployment issued during the year.

AVERAGE POTENTIAL DURATION - UI The number of weeks of full benefits to which claimants are potentially entitled within their benefit years or other compensation periods divided by the number of such claimants.

AVERAGE WEEKLY BENEFIT AMOUNT FOR TOTAL UNEMPLOYMENT - UI The amount computed by dividing the amount of compensation paid for total unemployment during a given period by the corresponding number of weeks for which compensation for total unemployment was paid.

CERTIFICATION - TJTC A document issued to an employer by a SESA which certifies that the person named on the certification was determined to be a member of a TJTC target group and will therefore qualify the specified employer to claim the tax credit against qualified wages paid to that person under the provisions of the Revenue Act of 1978, as amended, and specified by the Tax Reform Act of 1986.

CLAIM - UI A filed notice of unemployment requesting a determination of benefit entitlement and compensation eligibility for a weekly benefit or a waiting period credit.

CLAIMANT - UI A person who files either an initial claim or a continued week claim under (1) any state or federal unemployment compensation program, or (2) any other program administered by the state Job Service agency.

CLAIMANT FRAUD - UI The willful misrepresentation or non-disclosure of a material fact by a claimant for the purpose of obtaining benefits to which the individual is not entitled.

COMPENSATION - UI Money payments to individuals with respect to their unemployment, which includes regular, additional, and extended benefits (emergency compensation). Excludes assistance and allowance payment of Disaster Unemployment Assistance and Trade Readjustment Allowances.

COUNSELING SERVICES - ES Vocational counseling is legislatively mandated to be available for veterans and the handicapped, and can serve other populations who need information to become job ready.

ECONOMIC ELIGIBILITY DETERMINATION - TJTC A determination that the target group individual is disadvantaged.

EMPLOYER VISIT AND TELEPHONE CONTACT - ES A visit or telephone call made by a local office staff member to an employer's establishment (including union and employer organizations that are either employers or serve as hiring agents for employers, or that influence the hiring practices of employers) for one or more of the following purposes: (1) to explain or emphasize the services available to the employer through the employment service and to solicit the employer's cooperation with participation in ES manpower programs by listing his job openings with the ES local office in all occupations and skills; (2) to discuss and resolve questions or problems related to the filling of existing job orders, and/or (3) to provide nontechnical assistance in the solution of the employer's workforce problems.

EXPERIENCE RATING - UI A method for determining the contribution rates of individual employers on the basis of the factors specified in the State unemployment compensation law for measuring employer's experience with respect to unemployment.

EXTENDED BENEFITS (EB) - UI The supplemental program that pays extended compensation during periods of specified high unemployment to individuals for weeks of unemployment after (1) they draw the maximum potential entitlement to regular compensation within their benefit year or (2) after their benefit year ends while they are in continued unemployment status and have insufficient wage credits to establish a new claim provided, however, that the extended benefit period in the state began prior to the end of their benefit year. Extended benefits paid to claimants under state unemployment compensation law are jointly financed on a 50-50 basis by state and federal funds; extended benefits paid to Unemployment Compensation for Federal Employees (UCFE) and Unemployment Compensation for Ex-Servicemen (UCX) claimants are totally financed by federal funds.

FARMWORKER - ES A person who performs work for wages in agricultural production or agricultural services.

FEDERAL CONTINGENCY FUND - UI Money appropriated by Congress to meet certain unpredictable increases in costs of administration by state agencies arising from increases in workload or other specified causes.

FILLED OPENING - ES A job opening for which an applicant referred by a local office has been hired by an employer and has started the job.

FINAL PAYMENT - UI The last payment to a claimant that exhausts the individual's maximum potential benefit entitlement under a specific program.

FIRST PAYMENT - UI Payment for the first compensable week of unemployment claimed by an individual under an unemployment insurance program.

HANDICAPPED - ES Any individual who has a physical or mental impairment which for such individual constitutes or results in a substantial limitation to employment, and is not a Disabled Veteran or a Special Disabled Veteran.

INITIAL CLAIM - UI Any notice of unemployment filed (1) to request a determination of entitlement to and eligibility for compensation, or (2) to begin a second or subsequent period of unemployment within a benefit year or period of eligibility.

INTERVIEW - ES

APPLICATION INTERVIEW A face-to-face discussion between an employment service interviewer and an applicant for the purpose of (1) obtaining information about the applicant's qualifications for work; (2) ascertaining any need the applicant may have for employment counseling; and (3) providing information which may increase the applicant's opportunities for placement.

COUNSELING INTERVIEW A face-to-face interview in which an Employment Counselor or Counselor Trainee (1) helps an applicant resolve problems of occupational choice, occupational change, or job adjustment; and (2) obtains and records on the application and/or other appropriate applicant records one or more of the following: (a) a summary statement describing the counseling problem; (b) additional information contributing to a sharper definition of the problem or to its solution; (c) a statement of an occupational plan or recommendations for the solution of the problem; and/or (d) when pertinent, a statement elicited in the course of follow-up concerning progress in carrying out the counseling plan and any further services needed.

INSURED UNEMPLOYMENT - UI Unemployment during a week for which waiting period credit or benefits are claimed under the regular compensation programs, supplemental extended benefit programs, or the railroad unemployment insurance program.

INTERSTATE CLAIM - UI A claim filed in one (agent) state based on monetary entitlement to compensation in another (liable) state.

JOB DEVELOPMENT CONTACT - ES The process of soliciting a public or private employer's job interview for a specific individual for whom a program sponsor has no suitable opening currently on file.

JOB OPENING - ES A single job opening for which the local office has on file a request to select and refer an applicant or applicants.

JOB ORDER - ES A single request for referral of one or more applicants to fill one or more job openings in a single occupational classification.

LIABLE STATE - UI The State against which a worker files a claim for compensation through the facilities of another (agent) State.

MAXIMUM POTENTIAL DURATION - UI The highest number of weeks of total unemployment for which benefits are payable to any claimant in a benefit year or other period of eligibility under a state or federal unemployment compensation law.

MAXIMUM WEEKLY BENEFIT AMOUNT - UI The highest weekly benefit amount for a week of total unemployment as provided under a state or federal unemployment compensation law.

MIGRANT FARMWORKER - ES A seasonal farmworker who had to travel to do the farmwork so that he/she was unable to return to his/her permanent residence within the same day. Full-time students traveling in organized groups rather than with their families are excluded.

MINIMUM POTENTIAL BENEFIT AMOUNT - UI The smallest amount of benefits for weeks of total unemployment that an individual may receive under a state or federal unemployment compensation law.

MINIMUM WEEKLY BENEFIT AMOUNT - UI The lowest weekly benefit amount for a week of total unemployment as provided in a state unemployment compensation law.

MINORITY GROUP - ES, UI Individuals Not Classified as "White, Not Hispanic," or "INA" (Information Not Available ) under Race/Ethnic Group.

BLACK A person having origins in any of the black racial groups of Africa.

HISPANIC A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race. Among persons from Central and South American countries, only those who are of Spanish origin, descent, or culture should be included in the Hispanic category.

AMERICAN INDIAN/ALASKAN A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.

ASIAN/PACIFIC ISLANDER A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.

MONETARY DETERMINATION - UI A written notice issued to inform an individual whether or not the individual meets the employment and wage requirements necessary to establish entitlement to compensation under a specific program, and, if entitled, the weekly and maximum benefit amounts the individual may receive.

OBTAINED EMPLOYMENT - ES Total transactions recorded which are controlled by: The hiring by a public or private employer of an ES applicant resulting from an activity listed below that was wholly or partially funded by ES: (a) within 90 calendar days of participation in an ES Job Search Workshop or Job Finding Club, (b) within 90 calendar days of receiving employment counseling, testing, or development of an employability plan, (c) before expiration of the tax credit voucher, (d) within 90 calendar days of receiving bonding assistance, or (e) within 90 calendar days of termination from a training program in which any ES applicant was placed by the ES agency. (The ES applicant subsequently either may have found own job or been placed in an unsubsidized job by the training program.) Verification must have also been received from a reliable source, preferably the employer, that the applicant has obtained employment and such employment does not meet the definition of placement.

OLDER WORKER - ES, UI An applicant or claimant who is 40 years old or older and is encountering or may be expected to encounter difficulty in securing and maintaining employment because of age.

PLACED IN TRAINING- ES An applicant for whom a notification or other specified form is received which indicates that the applicant is placed in the training designated on the form.

PLACEMENT - ES The hiring by a public or private employer of an individual referred by the employment office for a job or interview, provided that the employment office completed all of the following items: (a) prepare a job order form prior to referral, except in the case of a job development contact on behalf of a specific applicant; (b) made prior arrangements with the employer for the referral of an individual or individuals; (c) referred an individual who had not been specifically designated by the employer, except for referrals on agricultural job orders for a specific crew leader or worker; (d) verified from a reliable source, preferably the employer, that the individual had entered on a job; and (e) appropriately recorded the placement.

POTENTIAL DURATION - UI The total number of weeks of total unemployment for which an individual claimant may receive benefits in a benefit year or period of eligibility under the entitlement provisions of a state or federal unemployment compensation program or any other program administered by a state agency.

PRE-EMPLOYMENT PERIOD - TJTC The 60-day period prior to an applicant's date of hire.

RATE OF INSURED UNEMPLOYMENT - UI The number of insured weeks claimed as a percentage of UI covered workers.

REFERRAL - ES The act of bringing to the attention of an employer, a local office, a training sponsor, or a supportive service agency, an individual (or group of individuals) who need a job, training, or a related supportive service.

RENEWAL - ES The transfer from the inactive to the active file of the application of an applicant who is again considered to be available for referral to job openings.

REPORTABLE SERVICES - ES Services refer to manpower activities related to training and employment efforts which are provided by employment service offices and which are designed to result in the training and/or employment of the applicant. Included among these services are the following: counseling, testing, job development contact, referral to training, referral to supportive service, job referral, and placement.

SEASONAL FARMWORKER - ES A person who, during the preceding 12 months, worked at least an aggregate of 25 or more days or parts of days in which some work was performed in farmwork, earned at least half of his/her income from farmwork, and was not employed in farmwork year round by the same employer. For the purposes of this definition only, a farm labor contractor is not considered an employer. Non-migrant individuals who are full-time students are excluded.

SEPARATION NOTICE - ES, UI An employer's report of the separation of one or more of his workers showing the date and reason for the separation and such other information as may be requested by the state employment security agency.

SEPARATIONS - ES, UI All terminations of employment, generally classifiable as layoffs, quits, discharges, or other separations, as provided under applicable state laws. Transfers within the establishment or from regular activities to temporary construction activities are not considered as separations. Also, for ES purposes, a suspension from pay status with definite instructions for the employee to return to work within 7 consecutive days is not considered as a separation. Transfers from one establishment to another establishment of the same company or included in "other separations." When requesting information from employers, the following definitions should be used:

DISCHARGES A discharge is termination of employment initiated by the employer for such reasons as incompetence, violation of rules, dishonesty, laziness, absenteeism, insubordination, failure to pass probationary period or misconduct.

LAYOFFS A layoff is a suspension from pay status (lasting or expected to last more than 7 consecutive calendar days without pay for ES purposes and one or more days for UI purposes) initiated by the employer without prejudice to the worker for such reasons as: lack of orders, model changeover termination of seasonal or temporary employment, inventory-taking, introduction of labor saving devices, plant breakdown, shortage of materials; include temporarily furloughed employees and employees placed on unpaid vacations.

OTHER SEPARATIONS Terminations of employment for military duty lasting or expected to last more than 30 calendar days, retirement, death, permanent disability, failure to meet the physical standards required, and transfers of employees to another establishment of the company.

QUITS A quit is a termination of employment initiated by the employee for any reason except to retire, to transfer to another establishment of the same firm, or for service in the Armed Forces. Include a person who fails to report after being hired (if previously counted as an accession) and an authorized absence if on the last day of the month the person has been absent more than 7 consecutive calendar days.

SESA - ES State Employment Service Agency

SUPPORTIVE SERVICES - ES Services supplemental to employment or training.

HEALTH A public or private agency or individual who provides medical, dental, or psychiatric examination or treatment.

REMEDIAL An agency or community group which has agreed to provide remedial service such as improvement of reading skills or speech training.

REFERRED TO JTPA Referral of an applicant to the Job Training Partnership Act (JTPA) program by an employment service local office that was not handling the JTPA intake function (registrant for JTPA program under Titles II or III).

OTHER An agency or community group which provides a supportive service (other than training) which the employment service is not equipped to provide and which is not included under rehabilitation, health, welfare, or remedial.

TARGETED JOBS TAX CREDIT - TJTC A tax credit program for private employers based on qualified wages paid to disadvantaged job applicants identified in one of nine targeted groups. The TJTC program was established by the Revenue Act of 1978.

TJTC TARGET GROUPS The nine targeted groups which are eligible for a Targeted Jobs Tax Credit are as follows:

AID TO FAMILIES WITH DEPENDENT CHILDREN (AFDC) RECIPIENT An AFDC eligible person who received financial assistance during the ninety days prior to TJTC employment, and who is still earning qualified wages under TJTC.

ECONOMICALLY DISADVANTAGED EX-FELON Any person who has been convicted of a felony under any statue of the United States or any state, and, has an employment starting date which is not more than five years after the later of the date on which he/she was so convicted or the date released from prison, and is a member of an economically disadvantaged family.

ECONOMICALLY DISADVANTAGED SUMMER YOUTH Any person who performs services for the employer between May 1 and September 15, and has attained age 16 but not 18 on the hiring date, and has not been employed by the same employer prior to the ninety day (summer) period between May 1 and September 15, and is a member of an economically disadvantaged family.

ECONOMICALLY DISADVANTAGED VIETNAM-ERA VETERAN Any person who has served on active duty in the Armed Forces of the United States for a period of more than 180 days, any part of which occurred in the period from August 5, 1964, through May 7, 1975, or was discharged or released from active duty in the United States for a service-connected disability, if any part of such active duty was performed during the period from August 5, 1964 through May 7, 1975, and did not have any day during the pre-employment period which was a day of "extended active duty" in the Armed Forces of the United States, and is a member of an economically disadvantaged family.

ECONOMICALLY DISADVANTAGED YOUTH Any person who is at least age 18 but not yet age 23 on the hiring date for hires starting to work after December 31, 1988, and is a member of an economically disadvantaged family.

GENERAL ASSISTANCE RECIPIENT Any person certified as receiving financial assistance in the form of money payments, voucher or scrip, based on need, from a qualified State or local general assistance program. The assistance must have been received for a period of not less than thirty days, ending within the pre-employment period.

SUPPLEMENTAL SECURITY INCOME (SSI) RECIPIENT Any person certified as receiving SSI benefits under Title XVI of the Social Security Act for any month ending in the pre-employment period.

VOCATIONAL REHABILITATION REFERRAL Any person who has a physical or mental disability which, for that person, constitutes or results in a substantial handicap to employment, and was referred to the employer upon, or at any time after completing, or while receiving, rehabilitative services pursuant to: (a) an individualized written rehabilitation plan under a State plan for vocational rehabilitation services approved under the Rehabilitation Act of 1973, or (b) a vocational rehabilitation program for veterans, carried out under Chapter 31 of Title 38, U.S. Code.

TESTING - ES This refers to tests and assessment techniques utilized by the public employment service to evaluate individuals for selection and referral to jobs, training, or vocational counseling.

TESTS - ES A standardized means of measuring an individual's possession of, interest in, or ability to acquire, job skills and knowledge.

TOTAL APPLICANTS - ES All applicants active as of July 1 plus all applicants who received a New, New Partial, or Renewal during the current Program Year. Each applicant is counted only once. All applicants active at anytime during the Program Year are counted.

TOTAL UNEMPLOYMENT - UI Total unemployment is defined in State Unemployment Insurance (UI) law. It is usually a week in which an individual claiming UI performed no work and with respect to which no remuneration is payable. In some states, specified small amounts of odd-job earnings are disregarded.

TRAINING - ES A planned, systematic sequence of instruction or other learning experience on an individual or group basis under competent supervision, which is designed to impart skills, knowledge, or abilities to prepare individuals for employment.

UNEMPLOYMENT COMPENSATION (UC) - UI The state programs that provide benefits to individuals covered under state and federal unemployment compensation laws, supplemental extended compensation (payable to eligible individuals under other provision of state and/or federal laws during periods of high unemployment) and other special programs which compensate individuals involved in situations which adversely affect their employment status through no fault of their own.

UNEMPLOYMENT COMPENSATION FOR EX-SERVICEMEMBER (UCX) - UI The federal program that provides benefits to ex-servicemember established by 5 United States Code, Chapter 85.

UNEMPLOYMENT INSURANCE FOR FEDERAL EMPLOYEES (UCFE) - UI The program term which encompasses all state and federal unemployment compensation laws and related programs administered by the state and federal unemployment insurance services.

UNEMPLOYMENT TRUST FUND - UI A fund established in the Treasury of the United States which contains all monies deposited by state agencies to the credit of their unemployment fund accounts and federal unemployment taxes collected by the Internal Revenue Service (IRS).

VETERAN - ES A person who (a) served on active duty for a period of more than 180 days and was discharged or released therefrom with other than a dishonorable discharge, or (b) was discharged or released from active duty because of a service-connected disability.

VIETNAM ERA VETERAN A veteran (see definition above) who served on active duty for a period of more than 180 days, any part of which occurred during the Vietnam Era, the period beginning August 5, 1964 and ending May 7, 1975.

DISABLED VETERAN A veteran (see definition above) entitled to disability compensation (or who but for the receipt of military retired pay, would be entitled to compensation) under laws administered by the Veterans Administration, including veterans who are classified as Special Disabled Veterans defined below.

SPECIAL DISABLED VETERAN A veteran (see definition above) entitled to disability compensation (or who but for the receipt of military retired pay, would be entitled to compensation) under laws administered by the Veterans Administration for a disability (1) rated at 30 percent or more, or (2) rated at 10 or 20 percent in the case of a veteran who has been determined by the Veterans Administration to have a serious employment handicap; or a person who was discharged or released from active duty because of a service-connected disability.

WAGES - ES, UI

AVERAGE WEEKLY WAGES (1) For an individual worker, the result obtained by dividing his or her total wages in a specified period either by the total number of weeks in the period or by the number of weeks for which wages were payable to him or her during the period. (2) For a group of workers, the result obtained by dividing the total wages for one or more quarters by the number of weeks in the period, and then dividing by the average monthly employment for the payroll period including the 12th of each month during the period.

WEEK OF PARTIAL UNEMPLOYMENT - UI A week in which an individual works less than regular full-time hours for his/her regular employer because of lack of work, and earns less than the amount normally paid for full-time weekly wage but more than the allowable earnings prescribed by the state unemployment compensation law, so that, if eligible, the individual received less than his/her full weekly benefit payment.

WEEK OF PART-TOTAL UNEMPLOYMENT - UI A week of otherwise total unemployment in which an individual has odd jobs or subsidiary work with other than the individual's regular employer with earnings in excess of the allowable earnings prescribed by the state unemployment compensation law, so that, if eligible, the individual received less than his/her full weekly benefit payment.

WEEK OF TOTAL UNEMPLOYMENT - UI A week in which an individual performs no work and earns no wages or has less than full-time work and earns not more than the allowable earnings prescribed in the state unemployment compensation law, so that, if eligible, the individual receives his/her full weekly benefit

amount. (An exception may be the final payment when an individual's benefit balance would preclude payment of the full weekly benefit amount or if the weekly benefit amount is reduced due to income from items covered under deductions from the Weekly Benefit Amount).

WEEKLY BENEFIT AMOUNT - UI The amount payable to a claimant for a compensable week of total unemployment.

WEEKS CLAIMED - UI The weeks covered by intrastate continued claims and interstate continued claims for which waiting period credit or payment of compensation is requested. A week for which excessive earnings are reported does not constitute a claim for a week of unemployment. However, when other deductible income exceeds the weekly benefit amount it is to be considered a week claimed.

WEEKS COMPENSATED - UI The number of weeks claimed which are actually paid.

WORKLOAD - ES, UI The measure of the volume of work for each functional area of operation in the state agency; e.g., the number of contribution payroll reports processed, the number of applicants for employment, etc.
